

CMS

Joomla

Joomla! (произносится джумла) — система управления содержимым (CMS), написанная на языках PHP и JavaScript, использующая в качестве хранилища базы данных СУБД MySQL или другие стандартные промышленные реляционные СУБД. Является свободным программным обеспечением, распространяемым под лицензией GNU GPL.

The screenshot shows the Joomla 6.0.0 Home Dashboard. The left sidebar is dark-themed with white icons and text, showing 'Home Dashboard' as the active item. The main content area is also dark-themed. It features several sections: 'site' (with sub-items 'Users', 'Articles', 'Article Categories', 'Media', 'Modules', and 'Plugins'), 'System' (with sub-items 'Global Checkin', 'Cache', and 'Global Configuration'), and 'Notifications' (with sub-items 'Automated Updates are enabled.', 'Joomla is up to date.', 'Updates are available! 2', 'Overrides to check! 1', 'A Download Key is missing!', and 'No urgent privacy requests.'). A modal window titled 'Add Article Category' is overlaid on the 'Article Categories' section. The URL in the browser bar is https://ru/administrator/index.php?option=com_categories&task=category.add&extension=com_content.

DokuWiki

DokuWiki (Докувики) — вики-движок, который может быть использован для создания документации. Автор проекта — Андреас Гор (Andreas Gohr). В отличие от многих других движков, DokuWiki использует для хранения страниц текстовые файлы, таким образом

единственным требованием является поддержка хостингом PHP (последний релиз требует PHP 7.4 или новее). Код движка распространяется на условиях GNU General Public License версии 2.
